

Authors and Contribution Declaration for a Scientific Publication

Individuals claiming authorship should **meet all 3 of the following conditions** in accordance with the “Consensus Statement on Journals Authorship”:

1. Authors make considerable contributions to conception and design, and/or acquisition of data, and/or Analysis and interpretation of data
2. Authors contribute in drafting the article or reviewing it critically for significant intellectual content; and
3. Authors give final approval of the version to be submitted and any revised version.

Each author should have participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Allowing one’s name to appear as an author without having contributed significantly to the study or adding the name of an individual who has not contributed or who has not agreed to the work in its current form is considered a breach of appropriate authorship

Ghost-writing is NOT acceptable. No one, other than the authors listed below, should have contributed substantially to the writing and revising of the manuscript. Contributors who do not meet the criteria for authorship should be listed in the acknowledgment. Examples include: individuals who allowed their clinical experience to be included, a person who provided purely technical help, copyediting, proofreading or translation assistance (NO ghost writers allowed), or a department Chair who provided only general support.

For Example:

- Author X participated in all experiments, coordinated the data-analysis and contributed to the writing of the manuscript.
- Author Y coordinated the mouse work.
- Author Z designed the research plan and organized the study
- Corresponding author and all co-authors are required to sign this declaration

PUBLICATION

Title	Measuring Distances Between the User’s Body Segments Using an RGB Camera
Journal	Journal of Computer Science
Corresponding Author	Luís Carlos da Silva Bruno

Scopus / Google Scholar ID	https://www.scopus.com/authid/detail.uri?authorId=23396025500 https://scholar.google.com/citations?user=c28PjGcAAAAJ&hl=en
